

ASSEMBLY INSTRUCTIONS

Item NO.: 141683

Carefully remove all parts from the box and lay on a flat surface.

Note: Electrical wire is connected continuously through the poles.

Please DO NOT pull wire during unpacking, it could lead to poor connectivity.

IMPORTANT NOTICE:

This plastic ring protects cable avoiding being damaged during transportation, please throw them away, and keep out of reach of children

Be careful not to twist or damage power cord when assembling the light.

- ①. According to the assembly sequence, Screw part C into part D and tighten.
- ②. Screw part D into part E and tighten.
- ③. Screw part E into Part F, and tighten
- ④. Screw part F into Part G, and tighten

To fit the shade: Remove the shade ring (A) from lamp holder (C) and fit the shade (B). Position the shade over the lamp holder and refit the shade ring to secure in place. Take care not to over-tighten as may cause damage to the fitting.
